PROFESSIONAL SUMMARY

Recent Computer Science and Engineering graduate with knowledge of Core Java, OOP concepts, Oracle SQL, and Frontend Technologies, JDBC. Completed academic projects that enhanced my understanding of programming and web application development. Seeking an opportunity to apply my knowledge, contribute to organizational success, and grow professionally.

PROJECTS

Blockchain-Based KYC Model for Credit Allocation

2025-2026

- Developed a secure blockchain-based KYC system using Java, Spring Boot, Ethereum, Solidity, Web3j, and MySQL
- Implemented smart contracts to automate customer KYC verification and securely manage identity records.
- Enabled secure sharing of verified KYC data between authorized banks, reducing duplicate verification efforts.
- Improved data integrity, transparency, and security by leveraging the immutable nature of blockchain technology.
- Streamlined the credit allocation process by providing verified customer information for faster and more reliable loan approval decisions.

Student Management System

2025

- Developed a Student Management System using Java, JDBC, and MySQL to efficiently manage student records.
- Implemented CRUD operations (Create, Read, Update, Delete) for seamless management of student information.
- Integrated JDBC with MySQL to enable secure database connectivity and data retrieval.
- Applied Object-Oriented Programming (OOP) principles and exception handling to build a reliable and maintainable application.

Personal Expense Tracker

2024-2025

- Developed a Personal Expense Tracker using the MERN Stack (MongoDB, Express.js, React.js, Node.js) to manage daily income and expenses.
- Implemented user authentication with secure login and registration, enabling personalized expense management.
- Built features to add, edit, delete, and categorize transactions for efficient financial tracking.
- Designed an interactive dashboard with expense summaries and visual reports to help users analyze their spending patterns.

TECHNICAL SKILLS

Programming Language: Java

Core Concepts: Object-Oriented Programming (OOP), Exception Handling, Collections

Java Technologies: JDBC, JSP, Spring

Database: Oracle SQL (DDL, DML, Joins, Subqueries, Constraints, Views, Aggregate Functions, Normalization Basics)

Tools: Eclipse IDE, IntelliJ IDEA, VS Code, Android Studio, GitHub

Operating System: Windows

EDUCATION

Bachelor of Technology (Computer Science and Engineering)

2022-2026

Bhaskar Engineering College, Moinabad

Percentage: 76%

Higher Secondary Education (MPC)

2020-2022

ST Ann's Junior College for Girls, Mehdiapatnam

Percentage: 72.50%

Secondary School Certificate (SSC)

2019-2020

Nagarjuna High School, Raidurg Darga

Percentage: 100%

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Place, Idea-A-Thon by THub (2025)
- Chief Operational Officer, BEC Student Council (2024-2025)
